DMITRY KRASNOV

Front end developer

92124 San Diego, CA

fl.krasnov@gmail.com | LinkedIn

PROFILE

- 5+ years of experience building interfaces and web applications using HTML/CSS/JS/React/API both from scratch and diving into an existing codebase.

- While working in a product team I've learned how to successfully plan, implement and scale products with new features and functionality.

- I'm attentive to details while building interfaces, and have experience implementing award winning UIs.

- My latest job involved me in onboarding and mentoring junior front end devs.

- I'm constantly improving my expertise. Currently I'm learning backend development with Node
